

# What are Rockville's Climate Action Goals?

CITY OF ROCKVILLE

CLIMATE ACTION PLAN

## 1 Reduce GHG

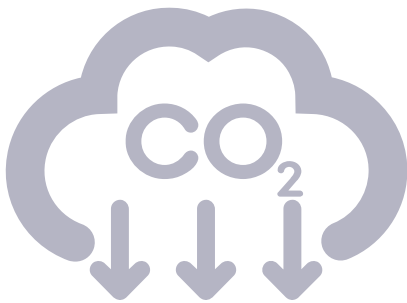

Reduce greenhouse gas emissions from transportation and energy use to at least 50 percent below 2005 levels by 2030 to be on track to reach net zero by or before 2050.

## 2 Prioritize Equity

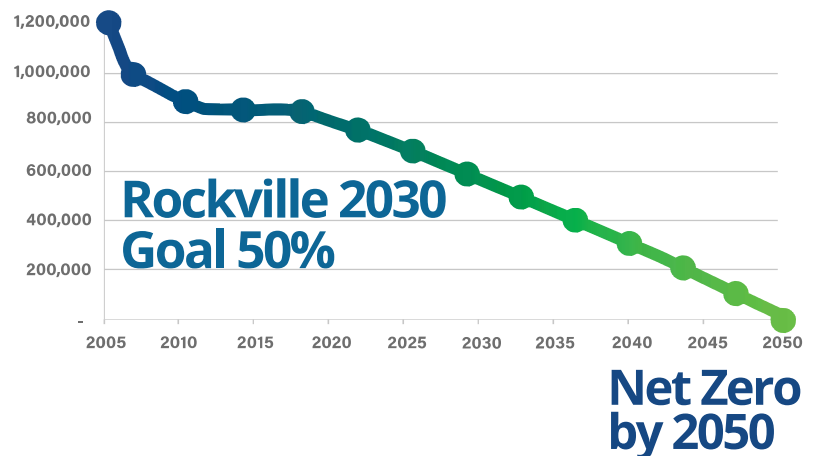

Incorporate equity in implementation and conduct inclusive engagement to reduce environmental disparities and protect and empower vulnerable communities.

## 3 Build Resiliency

Improve the capacity of our overall community to handle climate change impacts such as rising temperatures, more frequent and intense heat waves, drought, heavy rainfall and severe storms.

### Carbon Reduction Goals

### Rockville Climate Action Overview

#### Energy Efficiency

Increase energy conservation and reduce fossil fuel use in all buildings and infrastructure.

#### Materials and Waste

Manage solid waste by reducing, reusing, recycling, composting, and sustainable purchasing.

#### Renewable Energy

Increase the generation, use and access to affordable, reliable, and clean energy systems.

#### Resiliency

Improve capacity of our overall communities to handle more frequent and intense heat waves, drought, heavy rainfall and severe storms.

#### Transportation

Expand safe, efficient, affordable, and equitable multi-model transportation options.

#### Public Education and Oversight

Conduct inclusive and equitable public engagement and establish systems tracking support plan success.

#### Land Management

Maximize the economic and social benefits of land by maintaining or enhancing ecological health and ensure resiliency.
